

I am writing regarding the KLOVE station and the issue of LPFM stations. I hope that these LPFM stations will not adversely impact receiving KLOVE in our area. It has been a great benefit to myself and the rest of the community. I appreciate having a family-friendly radio station to listen to - something that I can leave on with my daughter and not worry about what she'll hear. I believe it is a great service to families in the community and an encouragement to their days. If it was gone, I would have to choose between talk radio and something that might be inappropriate for my daughter at times.
